Senior Resource Guide

**Steps and Services in Senior Care
North Orange County, California**

**St. Jude Medical Center, Senior Services
and
North Orange County Senior Collaborative**

Senior Care 101

Are you worried about an aging parent, spouse, or friend?

We can help! Join one of our free 1 hour classes to learn about...

- How you can get organized
- Resources to help you cope
- Legal documents you need
- How you can get help paying for care
- In-home care options
- How to find the right care setting

Where: St. Jude Community Services
130 Bastanchury Road, Fullerton, CA
(Entrance and parking is off of Laguna Rd.)

**Call us at
714-446-7035
to sign up for a class.**

**Classes held on the 4th
Wednesday* of the
month from 7 – 8 pm.**

(*4th Tuesday in November.)

**We hold classes for
groups too!**

Call us today to schedule a
class for your group event.

About This Guide

We wrote this **Senior Resource Guide** to help people care for older adults. If you are a senior, family caregiver, resident, or professional in North Orange County, CA ~ then this guide is for you.

Whether it is a friend, family member, or client that is in need, there are many things you can do to help. You may even use this guide to plan for your own future. Caring for an older adult, even yourself, takes a lot of love. So in this guide, we often call the person you're caring for "your loved one."

This guide will tell you what steps you need to take to care for your loved one. It will help you make a plan for their care. It will also help you find resources in North Orange County and other parts of the County.

There is no advertising in this guide, and no one paid to be in it. This guide does not list every service that you could use. These resources are just a few of the many senior services in North Orange County. Just because they are listed here, doesn't mean that we recommend them. This guide will help you get started, but there are other resources that may better meet your needs.

This Senior Resource Guide was edited and published by:

STEPS in Senior Care

The purpose of the North Orange County Senior Resource Guide is to help you quickly and as accurately as possible consider and prepare for what may lie ahead. The Resource Guide is divided into two parts ~ Steps and Services.

The first steps you'll need to consider begin here . . .

Step 1: Looking at Legal and Health Issues

Caregiving descends upon us in all sorts of ways ~ through sudden crises or a series of small but unsettling mishaps and warning signs. You may be the only person to step in or you may simply be the linchpin of a large network of family members and friends willing to help. Whatever the situation, you may not be sure of the next step. Or even the *first* step. Whether you are in the middle of a crisis and decisions have to be made quickly or you are planning ahead for an elderly loved one because of unsettling warning signs, the following questions, suggestions and information may be helpful in a variety of ways.

***Does your loved one need help? Here are some warning signs
Check those that apply***

- ☐ Difficulty walking -- unsteady when standing -- recent fall(s)
- ☐ Poor grooming and personal hygiene -- soiled clothing
- ☐ Loss of appetite -- changes in eating / cooking habits
- ☐ Spoiled or outdated food in fridge -- little nutritious food in home
- ☐ Diminished driving skills -- recent accidents -- near misses
- ☐ Loss of interest in activities once enjoyed
- ☐ Reluctance to socialize
- ☐ Difficulty concentrating / poor judgment
- ☐ Memory loss -- forgetfulness -- confusion -- inability to complete tasks
- ☐ Mishandled medication(s)
- ☐ Persistent fatigue -- lack of energy
- ☐ Personality changes -- irritability -- sudden mood changes
- ☐ Unopened mail -- past due bills -- mishandled finances
- ☐ Poor housekeeping / home maintenance -- unsafe conditions

Now that you know some of the warning signs ~ and there may be other concerns that you have as well ~ take a minute and jot down your answers to the following 'first step' questions:

First Questions To Ask And Answer

1. What specific kind of help does your loved one need? _____
2. Who will be financially responsible for their care? _____
3. How much time do you personally have to give? _____
4. Who will be legally responsible? _____
5. Who is the actual decision maker? _____
6. What kind of medical needs do they have? _____
7. Describe the type of day your loved one routinely has? _____
8. Are the problems undiagnosed but correctable? _____
9. If your loved one's problems are not correctable, what living arrangements and Care plans are most appropriate? _____
10. If they are able to remain in their own home, how will you determine what type of in-home care to arrange? _____
11. Are there transportation issues? _____
12. Is assisted living preferred / possible over aging-in-place? _____
13. What particular challenges does your loved one's disability pose?

14. What is the best way to access community resources? _____
15. How will you manage it all ~ *and still maintain a life of your own?* _____

The next step is collecting and organizing important information ~ this will be an invaluable step to take as time passes. It takes a little time to complete this step, but you'll be glad many times over that you have it where you can find it when you need it.

Information That You Will Need About Your Loved One

1. Make sure you know the senior's date of birth and Social Security number
 - a. You will need this information to access many services
2. Collect information about medical providers
 - a. If you haven't done so already, gather details about your loved one's physicians and health insurance
3. Names, phone numbers and addresses of the senior's medical professionals
 - a. Doctors, Dentist and Pharmacy (be sure to include complete details about any arrangements the senior has made for discount prescriptions)
4. Copies of health insurance policies and the front and back of all insurance cards. If your loved one is 65 or older, you will need a copy of their Medicare card
5. Make a list of all medications:
 - a. Prescription drugs and over-the-counter drugs (such as aspirin, antacids, herbal remedies, nutritional supplements ~ even daily multi-vitamins)

- b. Include dosage amounts and instructions for taking them (time of day, with food or between meals, etc.) Take this list with you to ALL of your loved one's medical appointments to help avoid dangerous prescription drugs interactions
 - c. Date and results of recent medical tests such as x-rays, CT scans and MRI's, dental, hearing and eye tests, etc.
6. Complete health history
 - a. Be sure to take this with you to all of your loved one's medical appointments
 - b. Include major illness and medical conditions for your loved one's parents, brothers and sisters
 7. Learn as much as possible about the medical condition afflicting the senior
 - a. Talk to his or her doctors about the disorder
 - b. Study the symptoms & progression of the disease so you can anticipate what might come next
 8. With your loved one's approval, consider calling a family meeting
 - a. Try to involve trusted family members early in the process. Early input from them will facilitate communication and decision-making down the line
 - b. Allow all family members a chance to express themselves and their feelings
 - c. When possible, designate a person to be responsible for each task - set goals
 9. Be respectful of the older adult ~ always ask for their consent, opinion, preferences and ideas ~ this is about them and about their life

Legal Issues and Tools

First Task ~ Organize Papers

Legal issues relating to care planning are divided into two categories:

1. **Health Care**
2. **Financial**

Healthcare ~ Determine whether certain documents already exist. Look for:

1. Advance Health Care Directive
2. Power of Attorney for Health Care
3. Living Will
4. Directive to Physicians
5. HIPAA Authorization (means "**H**ealth **I**nsurance **P**ortability and **A**ccountability **A**ct")
6. POLST (means "**P**hysician **O**rders for **L**ife **S**ustaining **T**reatment")

Financial ~ Look for papers relating to property and financial matters:

1. Trusts
2. Wills
3. Power of Attorney for Finances

4. Deeds or Certificates of Ownership for Property
5. Annuities
6. Life Insurance
7. Long-Term Care Insurance Policies
8. Retirement Accounts/ Benefits (IRA, 401k, 403b, Pensions)
9. Veterans Benefits
10. Most recent statements from bank, credit union, investments.

Next, you'll want to visit a qualified attorney to review these papers.

DO NOT WAIT FOR A MEDICAL CRISIS. The person signing new documents must have legal capacity to understand what they are signing.

Second Task ~ Choose An Attorney

Sometimes the best choice is the original attorney who prepared the papers. If you have confidence in that person, this is an obvious choice.

However, sometimes clients lose touch with the attorney or feel that they need someone more familiar with their current life issues.

Finding An Elder Law Attorney

The attorney who practices Elder Law or Special Needs Law works primarily with people as they age and people with disabilities. Using a holistic approach, the attorney will address general estate planning issues and will counsel clients about planning for incapacity and possible long-term care needs. The attorney typically wants to be sure the documents properly coordinate private and public resources to finance the cost of quality care. The attorney may also have suggestions for support services in your area. You can locate an elder law attorney through:

1. NAELA

National Academy of Elder Law Attorneys' website at www.naela.org. On the NAELA homepage, you will find a link that will help you locate an elder law attorney near you.

2. For additional information go to the Attorney / Elder Law section on *pages 26-27*

Third Task ~ Get Ready For The Attorney Visit

Here are a few tips as you prepare. (Each attorney has a slightly different approach):

1. Make a list: Discuss with your spouse, partner, or those helping you the questions that are on your mind. Write them down
2. Think about your care managers: If you were unable to manage your finances and health care, who would you choose for those important jobs? Do you have alternates in mind? Would they agree to serve?
3. Are there doubts about the present ability of the client to understand and sign documents? If so, mention this to the attorney very soon!
4. If the client has a serious, chronic or terminal illness, or if there is some other urgency mention it to the attorney immediately!
5. When you make the appointment, ask the attorney these questions:
 - Does the attorney offer a no-charge first visit?
 - What documents should you bring to the meeting?
 - Should you complete a questionnaire first?
 - Will the attorney want to meet privately with the client?
 - Are family members welcome? Are designated trustees or health care agents welcome?
 - If the attorney accepts the case, what are the fees and costs? When will the client receive the legal services agreement for review? (In most cases, attorneys are required to have a written agreement for any legal work. It must be signed by both client and attorney)

Advance Care Planning Basics

1. Every adult needs an Advance Healthcare Directive:

- * To name your choice of person(s) to make your health care decisions when you can no longer communicate;
- * To tell those caring for you what kind of health care you want/don't want;
- * To tell everyone caring for you how you feel about life support;
- * To make special requests about the people or things important to you when you are ill (friends, music, clergy, pets, poetry, scripture, etc.);
- * To tell everyone where you want to live in your final days;
- * To make choices about organ donation, cremation, burial;
- * To tell everyone how you want to be remembered

2. Complete a POLST with your doctor's help if you presently have a serious life-threatening or terminal illness. *Physician Orders for Life Sustaining Treatment* forms are detailed doctor's orders which reflect your choices about life support options or resuscitation. These orders are kept in your medical chart. The law requires doctors, emergency medical responders, and healthcare workers to honor these detailed choices. Similar documents are often called **DNR (Do Not Resuscitate)**.

3. Make sure that your Hospital has a copy of your Advance Directive / POLST, that your healthcare agent knows your wishes and has a copy, and that you keep a copy (wallet, glove compartment, etc.) in case of emergency.

Medical Privacy and HIPAA

The *Health Information Portability and Accountability Act* ~ 1996 (HIPAA) is intended to safeguard an individual's health information.

A HIPPA release is a document signed and dated by you to authorize use and disclosure of protected health information for reasons other than treatment, payment or health care operations. An authorization must contain a description of the protected health information, the names of persons permitted to make a disclosure, the names of persons to whom the covered entity may disclose, an expiration date or event, an explanation of the individual's right to revoke, how to revoke, and a statement about potential re-disclosures.

Your doctor and other medical professionals are required by law to protect your medical privacy. This is why you are often asked to sign a form stating that you have received the provider's Privacy Statement.

IMPORTANT: The form often includes an authorization giving permission to share your medical information with other health care providers, your spouse or other person you designate. Consider who else you want to be included in your medical care information.

Don't wait until a medical emergency to sign an Advance Health Care Directive. Every time you visit a doctor, hospital, medical lab, etc., give them a copy of your Advance Health Care Directive and ask to sign the provider's HIPAA form stating who can receive information on your care.

What Kind Of Medical Care Do You Need?

Annual Wellness Visit is scheduled with your primary care physician. This visit is paid for by Medicare and it gives both you and your physician a chance to catch up on your healthcare concerns, needs, mental health status, tests that need to be run, lab work, etc. This is a good time to ask questions or talk about a specialist if needed.

Home Health care can only be provided by licensed health workers, such as skilled nursing care, physical therapy rehabilitation or other in-home services for the treatment of an illness or injury and is typically (though not necessarily) initiated by a physician. Medicare may pay for some home health care, but only if you meet certain qualifications and conditions. *Keep in mind that Home Health is **not** the same as In-Home Care and In-Home Care is rarely covered by insurance.* Check with your insurance company or physician for more information.

Palliative Care addresses the needs of patients struggling with chronic and / or life threatening illnesses and may occur in the hospital, home, or a skilled nursing setting. Comfort and quality of life, sometimes combined with curative treatment, are the focus of care.

Hospice Care is for individuals who are approaching end of life and are no longer seeking a cure or curative treatments. The focus of their treatment is comfort and quality of life for their remaining days. Hospice and Palliative care are both team-oriented groups consisting of specially trained professionals, volunteers and family members, and may occur in a variety of settings, including home, board and care, and skilled nursing facilities. Your physician prescribes Hospice care and Medicare covers this benefit. Typically you may choose one of the referrals your physician suggests or your own Hospice choice.

Insurance Plans ~ It's a good idea to begin looking at what type of Medicare or MediCal coverage is best too. Always consider prescription coverage and skilled nursing co-pay options. Dementia care insurance is another consideration too. *(see page 41 for more information)*

Meet with a Doctor

What Is A Geriatrician And Why Should You See One?

A **Geriatrician** (jer-ee-uh-trish-uhn) is a physician who is specifically trained to evaluate and manage the unique health care needs and treatment preferences of older adults. The types of conditions older adults have and how those conditions interact with each other differs from what adults under the age of 60 typically experience. Geriatricians are Board Certified with the American Medical Association and understand the unique physical and emotional health problems associated with aging. *(See a listing of Geriatricians on [page 35-36](#).)*

Geriatricians look beyond the medical problems to see their impact on a patient's overall well-being. They understand that health care involves not only medical examinations but also mental, spiritual, functional and social wellbeing.

Having a proper diagnosis is important in understanding what is needed to help older adults maintain their good health, improve their health with specialized care, and receive the care they need to age in place or to live a quality life in a supportive community.

A visit to the doctor's office can be stressful and intimidating but there are steps you can take to make the most out of your doctor's visit. Write down and keep track of symptoms or changes in health, mood, and physical and mental abilities.

Getting The Most Out Of Your Doctor Visit

A doctor's visit can be stressful. You may forget some of the things you wanted to talk to them about. So it's important to plan ahead for your visit. If you can take someone with you to your doctor's visit, consider doing so ~ it is often difficult to remember everything the physician tells or asks a patient to do.

On the next page are some things you can do to make the most out of your doctor's visit.

Preparing For A Doctor's Visit

Before your visit, write down your questions. Bring them to your office visit; ask the most important questions first; and make sure you get answers to your top two or three concerns. Before your visit, write your list of symptoms and details, and what they were like when they first started.

1. If you have diabetes or hypertension, bring your home-monitoring records;
2. Bring all your medications, including herbals, supplements and vitamins. If you can't bring the medications, be sure and bring an up-to-date list of medications and supplements. Keep this list handy;
3. Bring a tape recorder or a health care folder or notebook to write down the doctor's responses to your questions and her/his advice about treatment and other information for follow-up;
4. If you feel you need support in communicating with the doctor, in remembering information, or if you have a complicated health problem, have a friend or relative accompany you to be your advocate and to help you remember information;
5. Ask the doctor to write down her / his responses to your questions;
6. Feel free to ask questions about your medications ~ make sure you understand the medication's purpose ~ also ask if this is a generic or a brand name medication; (See [page 47](#) for low-cost medication options)
7. Let the doctor know if you do not understand anything being said;
8. Before you leave the office, make sure that you understand about your condition, your treatments, your medications, when you need to meet the goals prescribed by your doctor, and when you need to follow up with another visit;
9. After the visit, be sure to follow through with the Plan you discussed
10. Also see [page 35-36](#) for Geriatrician suggestions

Step 2: Consider Your Housing Options

Types and Costs of In-Home Care

It's important to know specifically, what type of care that your loved one actually needs. The following are types of in-home care to consider and inquire about, as well as descriptions of typical caregiver responsibilities.

1. **Personal Caregiver / Companion**
 - Provide friendly companionship
 - May also be a 'Hospital Sitter' or for Respite Care in some cases
 - Assists with light housework, meals, shopping, laundry, errands, etc.
 - No coverage by most health insurance policies

2. **Caregivers / Home Health Aide Services**

- Assist with personal needs such as activities of daily living, bathing, feeding, some bedside care, etc.
- May also assist with transportation to doctors and therapy appointments
- May perform errands such as food shopping, picking up prescriptions
- May help with meal preparation and light housekeeping
- Provide medication reminders ~ no skilled nursing tasks or dispensing medication
- Usually not covered by most health insurance policies

3. **Registered Nurse (RN) Or Licensed Vocational Nurse (LVN)**

- For specific acute and immediate licensed nursing care (i.e., trach care, IV's, etc.)
- For insurance reimbursement you must have a doctor's order and show written documentation of procedure which could only be performed by an R.N. or L.V.N. on a continuous basis
- Nurses do not typically perform housekeeping duties

How Much Will It Cost?

Not surprisingly, the cost of all types of care has steadily risen over the years ~ from homemaker services to nursing home care. Over the next few years rates for care will rise significantly. The best estimate for care costs can be found on The Genworth Cost of Care Study (2018):

(<https://www.genworth.com/aging-and-you/finances/cost-of-care.html>)

Rates listed below are average Orange County, California rates ~ *you may find some services that are higher depending on need and other variables.*

- | | |
|----------------------------------|---------------------------------------|
| • Personal Caregiver / Companion | \$20-27 OC Average <i>Hourly</i> Rate |
| • Caregivers / Home Health Aide | \$22-30 OC Average <i>Hourly</i> Rate |
| • Adult Day Health Care (ADHC) | \$72 OC Average <i>Daily</i> Rate |
| • Assisted Living Facility (ALF) | \$4,500+ OC <i>Monthly</i> Rate |
| • Memory Care Facility | \$5,500+ OC <i>Monthly</i> Rate |
| • Nursing Home Care (SNF) | \$263+ OC Average <i>Daily</i> Rate |

IMPORTANT ~ Caregivers as Independent Contractors and Private Pay:

Please do not assume that you can classify a private **caregiver** as an independent contractor. *In most cases state law classifies caregivers as employees.* If you are planning to hire a caregiver privately consult with an attorney or CPA. There are legal requirements to hiring private caregiver employees. Among them are Social Security benefits, Unemployment Insurance, Workman's Compensation and other costs. Be aware of your legal responsibilities. See *pages 40-41* for more information on in-home care agencies.

**Guidelines and Questions To Ask
When Interviewing Potential Caregiver Agencies**

1. Is the company independently owned, a corporation, or a franchise?
2. How many years have they been in business? Where is the local office?
3. Can they provide service in the area during the client's requested hours?
4. Does management have any healthcare experience or background?
5. What is the agencies' hourly rate? What is the minimum number of hours?
6. How much advance notice is required to cancel a shift?
7. Are there any charges for over 8-hour shifts, weekends or holidays?
8. How does the agency bill? Do they require a deposit? (Keep your receipts!)
9. How will they plan coverage if the caregiver is not able to work that shift?
10. Will the caregiver provide transportation for the patient? Will the caregiver use their own car or the patient's? How is gas paid for? Whose insurance is used?
11. How do they hire and evaluate their employees? Can caregivers be interviewed? What specific trainings do your caregivers get? How often?
12. Are the caregivers employees of the agency? Is Worker's Compensation Coverage, payroll taxes and expenses covered by the agency?
13. Are references available from a previous employer or agency?
14. Are agency personnel available after-hours 24/7 for consultation?
15. Is the agency a VA Approved Provider or do they have experience working with veterans and/or the VA and VA benefit plans for home care?

Types of Residential Settings

Aging in Place (In Your Own Residence) is something that many people consider doing for as long as possible. (Please see the *InfoBox* on [page 15](#) for things to consider.) An important consideration is safety ~ the senior's safety, and anyone they may live with. Other considerations include finances, convenience, social supports and transportation.

Retirement Communities (or ***Senior Independent Living Communities***) are designed to accommodate independent seniors who have few medical issues. Also called ***Continuing Care Retirement Communities (CCRC's)***.

Assisted Living Communities (state licensed) combine housing, healthcare, meals, socialization and some assistance with personal care in an independent environment.

Residential Care Homes (often referred to as a ***Board and Care***) (state licensed) provide care for seniors in a homelike setting that's very much like a family. This type of home varies considerably in both size and setting. The staff in a residential care home may assist with medications, help residents bathe / get dressed and other activities. Many ***Residential Care Homes*** also offer ***Memory Care*** and in-house ***Hospice*** care.

Memory Care Communities offer dementia care and/or Alzheimer's care. Alzheimer's care is often delivered in an assisted living or nursing home setting on a separate floor, unit, or building. These living environments have secured areas to prevent wandering.

Skilled Nursing Facilities (SNF) (also known as **Nursing Home** or **Rehab Facility** or **Long Term Care**) provide a high level of care for those who have significant deficiencies with everyday activities (i.e., activities of daily living / ADL's). Residents typically receive occupational, physical and other rehabilitative therapies after an accident, illness or hospitalization along with medical care.

Aging In Place ~ Things To Consider

1. Consider living in your own home if you have a relatively small one-story home, or can move downstairs
2. Install safety equipment such as grab bars, handrails, ramps, extra lighting, a security system, obtain a personal emergency response system if necessary, etc. *(See pages 39-40, 45-46)*
3. Remove clutter (paper, boxes, old mail, catalogs, etc.) from closets, counters, etc. *(See Page 37)*
4. Remove minimally used / unnecessary items (i.e., books, clothing / shoes, old equipment, cookware, furniture, etc.) ~ if you haven't used it in a year ~ **TOSS IT!** *(See Page 37)*
5. Make sure items that are on shelves, drawers or cupboards are within *easy* reaching distance ~ avoid reaching more than 2-6 inches over head
6. Identify reliable, low-cost and convenient transportation options *(Pg 49-50)*
7. Notice how far your frequently used services (grocery store, drug store, doctors' offices, shopping mall, etc.) are from your home ~ close is better!
8. Consider financial issues ~ mortgage, medical costs, food, caregiver, etc.
9. Are all of your legal tools current and in place (Trust / Will, Advance Directive, PoA's, etc.) *(Pages 4-9)*
10. What is the distance to close friends and family members ~ *avoid isolation!*

Assisted Living / Memory Care – Options in Long-Term Care

When older adults can no longer live independently, family and caregivers are faced with the difficult decision of what type of care to select — because not all long-term care options are created equal. Two of the fastest-growing types of residential senior care are assisted living and memory care. But what are the differences between the two, and what are the most important factors in

making that choice? If the senior is still active and vital, but can no longer live entirely independently and needs assistance with everyday activities such as bathing, eating and dressing, one of the options available is assisted living.

What To Look For In An Assisted Living / Memory Care Facility

1. Bigger is not always better. Some residents with cognitive impairment can be over stimulated in a large environment and may do better in a calmer, homelike setting such as a 6-Bed Residential Care Home.
2. Shared or Private Room? Studies show that a shared room / restroom is not only less expensive, but can be better for residents with dementia as some become more anxious when alone. Socialization and active engagement should be a priority.
3. Observe the staff to see how they interact with residents (speak to residents by name, make good eye contact, walk with or gently touch residents, etc.). Observe other residents to see if you think they would be compatible with your loved one. A place that is perfect for one person may be completely wrong for another.
4. Don't be distracted by the décor. Fancy amenities are nice to look at but don't have a heart. Without compassionate, trained and experienced staff, none of that matters.
5. Expect an adjustment period. It takes time for a resident to get used to a new environment and it takes time for the staff to get to know their likes and dislikes too.
6. Visit at different times of the day to get a better picture of care and attentiveness quality. Observe meals, activities (variety, interaction and purpose for the activity).
7. Do your research or enlist the help of a professional who knows the history and reputation of care facilities in your area. At the same time, trust your own gut feelings. Nobody knows your loved one as well as you and your family.
8. For information on a placement specialist in your area, please [see page 38](#).

According to the Assisted Living Federation of America, assisted living is defined as “a long-term care option that combines housing, support services and health care, as needed.” Personal care services in assisted living often include transportation, light housekeeping, meals, medication management, and care is available around the clock. Seniors in assisted living usually have the option of a private room or shared space in an apartment, depending on their preferences and budget. As older adults age, they may simply need a little extra help with everyday tasks, or they may require more specialized nursing care if they have age-related issues with mobility, or conditions such as dementia. Assisted living facilities vary in terms of what services they offer, but some of them do provide memory care services, usually in a dementia special care unit (SCU). Among other things, memory care units are typically locked to prevent wandering and often have a higher staff/patient ratio.

Assisted living facilities are not federally regulated, but they should be licensed by the state they are located in.

Step 3: Community Resources and Information

Community Resources, Housing, and Nutritional Needs

1. Take a crash course in community resources:
 - a. Find out about senior centers (*see page 48-49*) and adult day health services (*see page 25*) in the senior's living area ~ what kind of care do they offer, transportation (*see pages 49-50*), etc.
 - b. What are the some of the best in-home care agencies around? (*See page 40-41 for suggestions.*) What meal delivery (*see page 42*) and Friendly Visitor (*see page 34*) support options are available? Are they a Veteran (*see pages 50-52*)?
 - c. Assess the senior's balance and mobility gaps and skills (*pages 29, 31-32*) and determine needs/resources
2. Even if this is an acute crisis that is likely to pass, *start gathering information* about assisted living facilities and other long-term care options. When the time comes, you will want to be able to offer the senior a range of options to choose from.
3. Recognize that loss of sight, hearing loss, memory loss, confusion, incontinence and depression are not normal aspects of aging. In many cases, these are treatable conditions ~ they could very well be the result of prescription drug interactions or drug side effects and need to be assessed for that. Failure to identify or treat these conditions may place elderly patients at risk of unnecessary functional decline. (*pages 42-43*)
4. If your loved one lives in an assisted living facility at some distance from you, one of your concerns will be replenishing your loved one's health care supplies at a reasonable price. While you can hire a personal shopper, it may be less expensive and just as reliable for you to shop online and have the supplies delivered to your loved one.
5. Consider hiring a **geriatric care manager** or using a **placement specialist**
 - a. These professionals are trained to quickly assess the overall situation, make recommendations about needed services and, if necessary, coordinate community resources (*see pages 27-28, and 25-26*) for more information / suggestions

Talk To And Consult With . . .

1. Consult with and
 - a. Talk to trusted friends, neighbors, acquaintances ~ anyone with experience in caring for an elder

- b. Assemble a mosaic of information about how to proceed and what to expect down the line. You will learn that others have been there before and found their way through ~ though sometimes with great difficulty and sadness
- 2. Talk with the older adult in your family and
 - b. Allow them as much independence as circumstances permit
 - c. Remember that the caregiver's role is to help them maintain as much control over their lives as feasible, not take it away
 - d. Allow them to make their own decisions unless the decisions become harmful to them. The more you can consult with your loved one, consider their desires, and truly respect them, the better the outcomes, and the smoother the transition in your relationship will be
 - e. Make sure that everyone on the caregiving team ~ whether they are family members, friends or professionals ~ has the information they need to perform their responsibilities
 - f. Make a list of emergency numbers, family contact numbers and other items and distribute it to those who might need it
 - g. Family members should know how to locate legal, financial and medical documents like durable powers of attorney, trusts / wills
 - h. Investment account statements and health insurance policies /who and where
- 3. If the senior is still living at home, make sure you and others in their inner circle have keys to the residence in case of emergency
- 4. Keep good notes
 - i. Whenever you talk to a doctor, lawyer, insurance company, service agency, government office or advocacy organization, write down the date and the name of the person you spoke with, contact information and the substance of the conversation
 - j. Keep separate files for different areas of concern ~ financial topics, medical affairs, real estate, vehicles, insurance, and so on

Even though this may sound unnecessarily pessimistic, never assume that the professional and medical personnel who are helping you with your loved one will do what they promise. If you don't actively follow-up, you may set yourself up for disappointment. These professional people are extremely busy and have other people to care for in addition to your loved one. Bottom Line ~ *stay involved for maximum benefit.*

- 5. Acknowledge your own feelings of loss, anger, shock and confusion. Perhaps you realized this moment was coming, perhaps not. In any event, you are likely to find unsettling emotions bubbling through the surface. Allow yourself time to experience them. *Take care of yourself!*

Elder Abuse Prevention, Resources and Reporting

It's hard to tell if someone is suffering from elder abuse. It doesn't always show right away. Suffering elder abuse can be embarrassing for anyone. People may feel ashamed that they've fallen for a scam. Of if someone they know or love, such as a child or spouse has abused them. No matter how smart or 'with it' that you are, really, just about anyone could be frightened or tricked into believing something that isn't true. Really, just about anyone could be victimized.

Elder Abuse Prevention, Reporting and Resources

PREVENTION:

1. Remove your name / email address from direct mail lists, internet or email adds. Mail a request to: DMA Mail Preference Service, P. O. Box #643, Carmel, NY 10512 Or log on to: www.dmachoice.org
2. Place your name on the **"Do Not Call"** list ~ updated quarterly.
From the phone number you are registering, call: **888-382-1222**
www.donotcall.gov
3. **Never** provide your password, credit card, Social Security Number, personal or financial information to someone who calls and claims to be from tech or fraud support. No legitimate organization will ask you for this.

REPORTING:

4. Adult Protective Services (APS) ~ report crimes, abuse or suspicions of abuse to: **800-451-5155**
5. All Scams can be reported to The Federal Trade Commission:
www.FTCComplaintAssistant.gov **877-382-4357**
6. IRS Scams can be reported to the Treasury Inspector General:
..... **800-366-4484**
7. Jury Duty Scams can be reported to the OC Office / FBI:
www.FBI.gov **714-939-8699**
8. Lottery Scams can be reported to State Attorney General: **916-322-3360**
9. Medicare Fraud: Senior MediCare Patrol (SMP) **855-613-7080**
10. Charity Fraud Questions / Validity / Report:
www.give.org or Better Business Bureau @ www.bbb.org **703-276-0100**
11. If you or someone you know may have been victimized by a cyber fraudster, please submit a complaint to the Federal Bureau of Investigation IC3 (FBI Internet Crime Complaint Center) at: <https://www.ic3.gov/>

RESOURCES:

12. Safe Options for Seniors/Human Options/Counseling ... **877-854-3594**
13. St. Jude Medical Center / Senior Services / Counseling **714-446-7064**
14. WTLIC Domestic Abuse / Counseling / Elder Abuse **714-992-1939**
15. For more information go to the National Center for Elder Abuse at:
<https://NCEA.acl.gov/> or Ageless Alliance at: www.AgelessAlliance.org/

Elder Abuse is one of the fastest growing and least reported forms of abuse in Orange County. Remember that the most common forms of abuse are financial scams and that **Fear** is the scammer's best friend. Other types of abuse include: emotional abuse, neglect / self-neglect, physical abuse and sexual abuse.

Emergency Phone Calls

10 Tips on How to Make an Effective 9-1-1 Call

Since **911** is for emergencies only, it helps to understand when to call and when not to call. An emergency is any serious situation where a law enforcement officer, fire fighter, or emergency medical help is needed right away. If you have to make such a call, please consider these tips:

1. **Try to remain calm.** *Breathe.* This helps both you and the dispatcher.
2. **Is someone hurt or in danger? Which do you need - fire department, police, or ambulance?** Identify yourself and the individual who needs **911**. Give descriptions like age, gender, height/weight, and medical condition.
3. **Know your location.** *State your name and address clearly.*
4. **Be aware of your surroundings** so you can describe where things are at.
5. **Don't hang up.** *Stay on the line ~ the dispatcher needs to keep in contact.*
6. **Let the 911 dispatcher guide the conversation, be patient and follow all directions.** *You're in good hands ~ ask for clarification if you need it.*
7. **Have a list of medications prepared.** Consider including other documents such as an Advance Directive, POLST, emergency contacts, or allergies.
8. **Help emergency responders locate and gain access to your residence:**
 - ✓ Consider a "hide-a-key" or a lock box with a key inside. Contact your local fire department so they can enter the code into their database to transmit to paramedics if they're unable to unlock the door.
 - ✓ Ensure proper lighting on the exterior of your home. Make sure your address has large numbers visible from the street.
 - ✓ Remove any barriers or hazards that would prevent safe access while carrying equipment or stretcher.
9. **What to expect when help arrives:**
 - Paramedics will ask questions while assessing the patient's vital signs to understand the patient's current condition and the patient's mental status.
 - ✓ Paramedics are trained to know what each hospital does best. They may go to a hospital that specializes in the patient's condition, rather than the nearest hospital. Be receptive and trust their judgment.
 - ✓ Depending upon the local department, you may be allowed to ride inside the ambulance with the patient.
 - ✓ Being transported by ambulance is no guarantee you will be seen faster, you may stay in the emergency waiting room. Patients are seen by need.
10. **Did you know:**
 - ✓ The fire department can conduct a 'Back-to-Bed' call to help someone who has fallen down and needs help getting up. Let **911** know your need.
 - ✓ Some local community fire departments have a program that allows you 'Back-to-Bed' calls for a designated number of times and a nominal annual fee. Check with your local fire department for more information.
 - ✓ *If you need a ride to the hospital and it is not life threatening, call an ambulance company and request a non-emergency ride to the hospital.*

Disaster Preparedness

Older adults need to feel empowered to take some simple steps to prepare for and respond to potential emergencies, including natural disasters and outages. Simple steps to take and review twice a year include:

5 Disaster Preparedness Steps to Take

1. Keep emergency medication, contact numbers and ID handy at all times
2. Store 3 days supply of food, water, first aid kit, flashlight, battery operated radio, whistle, wind-up clock and extra cash (not credit cards)
3. Have garbage bags and ties, and moist towelettes for personal sanitation
4. Test smoke alarms bi-annually (i.e., June 1st / December 1st)
5. In an emergency, take cover, stay indoors and know your evacuation plan

General Sources of Information and Services for Seniors

2-1-1 Orange County2-1-1

A free 24-hr, 3-digit telephone number that will enable callers to access comprehensive info and referrals to health and human services. Provides links to services including food, shelter, domestic violence, counseling, etc.

SERVICES With Seniors In Mind

Adult Day Care / Adult Day Health Care (ADHC)

Ø\$

Adult day care centers and adult day health care centers (also known as Community Based Adult Services – CBAS) take care of older adults' needs for social activities, meals, recreation, and some health-related services. Some adult day care centers offer rehab after hospital discharge and offer services in other languages as well. These centers are a good choice if you need a break from caring for your loved one. Adult Day Health Care centers cost about \$83 per day, and many are open 10 to 12 hours a day and provide transportation.

Driver's Education

AARP Smart Driver Class (Online) 800-424-3410

Refresh your driving skills and stay safe on the road. Review rules of the road, new car technology, and more. Cost is \$25, or \$20 for AARP members. Learn more at www.AARPDriverSafety.org

Mature Driver Class..... 714-808-4909

This free 1-day class will help you brush up on traffic laws and safe driving. You may be able to get a discount on your car insurance too. Mature driver classes are often held at senior centers. Call your local senior center for class days and times. (Go to [page 48-49](#)) for senior centers in North Orange County)

St. Jude Driver Assessment Program714-578-8706 ext. 2327

The Driver Assessment Program is for seniors with driving concerns such as vision, reaction time, and more. It takes about 3 to 4 hours, and you'll need a doctor's referral. After, you'll get written recommendations and resources for safe driving. Go to www.StJudeMedicalCenter.org and search "driver safety."

The Driving Center ~ Debbie Ricker, OTR562-760-140

Program offers clinical driving evaluation, in-vehicle driving evaluation, clinical driving training, in-vehicle driver training, and mobility training for alternative transportation for 65+ and disabled persons. Learn more at: dbrckr@aol.com

For Driver and DMV Advocacy, contact:

DRIVING DO'S AND DON'TS

Know When To Adjust Your Driving Decisions

You may need to make modifications to improve your driving skills abilities if you experience any of the issues listed below:

- a. Bad judgement when making left-hand turns
- b. Braking and accelerating at the same time
- c. Confusing the gas and brake pedals
- d. Confusion at exits
- e. Decreased confidence when making decisions
- f. Depending on a "co-pilot" for driving decisions
- g. Difficulty looking over your shoulder or turning your head
- h. Failure to stop at a Stop sign or red light
- i. Getting lost in familiar places
- j. Hitting curbs
- k. Increased agitation or irritation while driving
- l. Moving into the wrong lane or driving in the middle of the lane
- m. Near misses with other vehicles or pedestrians
- n. Not signaling, leaving turn signal on, or incorrect signaling
- o. Scrapes or dents on the car, mailbox or garage ~ car crashes

Fall Risk Reduction

Please utilize the Check List below to help ensure the safety of someone you know.

Fall Reduction / Home Safety Check List			
ENTRANCES	OK	Fix	
Steps ~ is there a railing and is it secure? Is there a ramp or need for a ramp? <i>(See Page 39)</i>			
Are walks and driveways free of breaks and uneven surfaces?			
Do you have lighting to provide safe walking at night?			
LIVING ROOM AND BEDROOMS			
Can you turn on lights upon entrance into room?			
Are you able to turn on light, radio, TV, or call from bed / chair?			
Are phone / extension cords away from all areas where you walk?			
Are floors clear of clutter, shoes and pet toys?			
Do throw rugs have non-skid strips or rug tape applied to them?			
Do you wear a device to obtain emergency help? <i>(See Page 45-46)</i>			
Widen or clear pathways by re-arranging furniture.			
KITCHEN			
Is floor clear of clutter? <i>(See Pages 37 and 40)</i>			
Are items / cupboards within easy reach (upper and lower)?			
BATHROOM			
Is there a nightlight in the bathroom?			
Does shower or tub have non-skid surfaces (mat, decal or strips)?			
Does the tub or shower have sturdy grab bars?			
Are floors kept dry and do they have a non-slip surface?			
Do bathroom rugs have non-skid backing?			
Are you able to get off and on the toilet easily?			
Are there grab bars to make getting up easier? <i>(See Page 39)</i>			
STAIRWAYS AND HALLWAYS			
Can stairway be lighted from top and bottom of steps?			
Is there a handrail and is it solid and sturdy?			
Are steps in good repair?			
HEAT / VENTILATION / SECURITY / FIRE			
Are there smoke/CO detectors and a fire extinguisher?			
Are thermometer displays easily readable/accessible?			

Are you worried that a friend or family member may fall and hurt themselves?

You can help them prevent falls. Here are 3 easy steps you can take:

1. **Get a fall risk assessment for their home.** Many agencies will do in-home fall risk assessments for free. St. Joseph and St. Jude Medical Center will come to your loved one's home to do a fall risk assessment. Just call:
 - **St. Joseph Hospital Rehabilitation Services** **714-771-8222**
 - **St. Jude Medical Center – Senior Services** **714-446-7064**

2. **Sign them up for older adult balance and exercise classes.** Check your local senior center for class days and times. (*Page 48-49* for a list of senior centers in North Orange County.) You can also find exercise and mobility classes at
- **CSUF Center for Successful Aging** **657-278-7012**
 - **OC Office on Aging** **714-480-6450**
 - **St. Jude Center for Rehabilitation and Wellness** **714-578-8770**
 - **Fullerton Family YMCA** **714-879-9622**
3. **Learn what else you can do to help prevent falls** by going to these websites:
- **Centers for Disease Control** www.CDC.gov/Steady/Patient.html
 - **Fall Prevention Center of Excellence** www.StopFalls.org
 - **OC Down With Falls Coalition** www.DownWithFalls.org

Fiduciaries

A **fiduciary** (fih-doo-she-air-ree) is someone that promises to act in your loved one's best interest. They can represent and carry out your loved one's wishes now, or when they can't make their own choices, or after they pass away. They can help your loved one take care of their banking, daily care needs, and more. Who needs a Professional Fiduciary?

- Those who don't want to burden or want to avoid conflict with family or friends
- Those who don't have family or friends capable of serving
- Those who want to ensure their wishes are carried out
- Those who have cognitive or physical limitations
- Those who are vulnerable to abuse, neglect or financial exploitations

A Licensed Professional Fiduciary can serve as your agent to represent and carry out your wishes now or when you become incapacitated (under a Power of Attorney for Finance and/or Healthcare or as your Trustee) or after you have passed away (as a Successor Trustee and/or Executor of a Will). For more information on hiring a fiduciary and what they can do go to:

- The California Professional Fiduciaries Bureau: www.fiduciary.ca.gov
- The Professional Fiduciary Association of California: www.pfac-pro.org
- The National Guardianship Association: www.guardianship.org

Learn more about fiduciaries on California's Professional Fiduciary Association website. Check if a fiduciary is licensed by going to: www.Fiduciary.CA.gov

If you choose to hire a fiduciary, you'll want someone that is licensed. Here are some licensed professional fiduciaries in Orange County:

- **Golden State Fiduciary Solutions**, Rob Saslow **949-335-7085**
- **OC Probate and Trust Services**, Becky Cote **714-662-3000**
- **Secure Fiduciary Services**, Mark McKibbin **714-293-2416**

Here are some fee-only financial advisors in North Orange County:

- They can answer your legal questions about financial planning, elder care, and more. To learn more, go to www.Help4Srs.org

↓\$ / Ø\$

- **The Consumer Financial Protection Bureau Guide**
To read it, go to www.ConsumerFinance.gov and search “know your financial adviser.”
- **Healthcare and Elder Law Programs (HELP) .. 310-533-1996** HELP has low cost and free services for seniors and their families.
- **The National Association of Personal Financial Planners Guide**
Read it at www.NAPFA.org by searching “how to find an advisor.”

Food Banks

↓\$ / ∅\$

Surplus Food Distribution at many Senior Centers ~ (see pages 48-49)

Fullerton

- **Caring Hands Food Pantry, First Lutheran Church** **714-871-7820**

5 BIG Mistakes in Medicare Enrollment

Mistake 1: Signing up too early or too late for Medicare and its different parts

Mistake 2: Not understanding the difference between a Medicare Supplement and a Medicare Advantage plan

Mistake 3: Guessing vs. researching when picking specific plans

Mistake 4: Not applying for extra financial help

Mistake 5: Not re-evaluating your coverage every year

Medicare Impacts On Social Security Timing

- Delay taking Social Security to age 65 or older:
 - Increased Social Security income can provide funds to help you pay for Medicare premiums for Part B and even Part D
- Delay to age 70 can help provide even more funds

If you need information or assistance regarding Medicare coverage options, benefits, enrollment, or any other Medicare related topic, please contact the Council on Aging's HICAP (Health Insurance Counseling and Advocacy Program) at **714-560-0424**. (See pg. 22) www.ncoa.org HICAP provides free, unbiased, personalized assistance and counseling to Orange County residents.

Memory Assessment

Have you ever misplaced your keys, forgotten a phone number or drawn a blank when trying to recall someone's name? For some people, this type of forgetfulness is a normal part of aging and generally not a cause for concern. When memory loss becomes disabling or interferes with daily living, it may be a warning sign of something more.

Recognizing the Early Signs of Memory Loss Problems

A memory assessment should be sought if you notice an older adult:

1. Experiencing memory changes that disrupt daily life
2. Hides memory loss to create an acceptable social image
3. Loses the ability to join in or actively contribute to conversations
4. Exhibits challenges in planning or problem solving
5. Has difficulty completing familiar tasks (i.e. gets lost driving to a local store)
6. Displays confusion with time or place
7. Misplaces things and loses the ability to retrace steps
8. Loses the ability to learn / retain new information or perform new tasks
9. Withdraws from work or isolates from social activities
10. Has trouble understanding visual images and spatial relationships

When to Call a Doctor

There are many possible causes for memory loss. It's important to identify and address the underlying cause. Symptoms of memory loss can be caused by a condition such as Alzheimer's disease, or by other conditions such as undetected small strokes. Other things that can contribute to memory loss include depression, anxiety, medication interactions, thyroid disorders, sleep problems, dehydration, and vitamin deficiencies.

Each type of dementia or medical condition requires its own treatment approach. Please contact your physician if you have concerns or schedule an appointment at any one of the Memory Assessment programs in Orange County ~ learn more. *Pages 42-43*

- **Senior Helpers** **714-694-0992**

Veterans Benefits

By law, an individual must be accredited by the VA as an agent, attorney, or representative of a VA-recognized veteran's service organization to assist in the preparation, presentation, and prosecution of a claim for VA benefits. VA accreditation may not be used for marketing financial products or promoting a financial services business. You may be able to get benefits from the U.S. Department of Veterans Affairs (also called the VA). Learn more about the kinds of benefits you can get on the VA website at www.benefits.VA.gov The sources listed below are accredited by the U.S. Department of Veterans Affairs: A Veterans Service Officer can help you apply for free. Just make sure you **work with a service officer that's approved by the VA**, like one of these:

- **AMVETS** (American Veterans)..... **877-726-8387**
AMVETS is the nation's largest veterans service organization. They have Veterans Service Officers in North Orange County. To find one near you, call, or email amvets@amvets.org
- **CalVet** (California Department of Veterans Affairs 2018)... **800-952-5626**
Visit www.CalVet.CA.gov for more information.
- **Orange County Veterans Service**..... **714-480-6555**
Learn more at www.Veterans.OCCgov.com/FAQ
- **U.S. Department of Veterans Affairs** **800-827-1000**
Apply for benefits online at www.ebenefits.va.gov
- **Veteran's Legal Institute** (No Cost For Those Eligible) **714-852-3492**
2100 N. Broadway, Suite 209, Santa Ana, CA 92706
Visit www.VetsLegal.com for more information.

- For more information call: **714-446-7035** or search for Senior Services at www.stjudemedicalcenter.org/

The North Orange County Senior Collaborative assists in editing and providing the information for this Senior Resource Guide. The **North Orange**

County Senior Collaborative (www.NOCSC.org) is a service organization, and is a cooperative effort by both private and public entities and persons seeking to *identify* and *address* the unmet needs of seniors and their support systems in our community.

There is no advertising and no one paid to be in this Guide.

(800) 543-8312

www.caregiveroc.org

The Caregiver Resource Center of Orange County offers an array of services such as a free in-home Family Consultation and Care Planning, legal and educational workshops and the opportunity to speak directly with a Family Consultant regarding your caregiving situation and your self-care. We offer local Support Groups in English, Spanish and Vietnamese.

Caregiving includes caring for me.

Ser cuidador incluye cuidarme a mí mismo.
Chăm sóc kẻ cả chăm sóc cho chính mình.

The Family Caregiver Resource Center, a program of St. Jude Medical Center, is part of a statewide system of California Caregiver Resource Centers, funded by the California Department of Health Care Services. Additional grant funds are provided by the Orange County Board of Supervisors, through the Orange County Office on Aging with funds from the Federal Department of Aging, Older Americans Act. Services are free and donations are gratefully accepted.
